1. Who we are

We are Designed Websites and our mission is to help thousands of entrepreneurs to grow their businesses by providing them with an amazing professional e-commerce website.

We know that starting this journey is not easy and that's why our 2 core values are:

- **Fair Price & Real Timing:** Programmers don't want you to know how long it takes to create a professional website. Why? Easy: More time = More money. We don't do it quickly; we do it in real-time. Pay what's fair.

We've been working for years to build the easiest process that will allow you to get your professional e-commerce website in 10 Business Days. LET'S GET STARTED!
